Why pursue the Project Management Professional (PMP®) credential?

The **PMP®** is an **internationally acclaimed** project management credential – it is the **gold standard** certification for those who work as project managers! Our development team has literally seen project managers without a master's degree win jobs over those who have master's degrees, because they had earned PMP® certification. This credential can set you apart from your peers. With this in mind, our developers have created a course and preparation tools that will seriously amplify your abilities to pass the very difficult PMP® exam and earn this critical credential.

Top 10 immediate benefits:

1. Significantly increase your chances of passing the exam
2. Learn from experienced, successful instructors
3. Access our proprietary Exam Simulator
4. Practice using good exam-taking techniques
5. Receive key insights into passing the exam
6. Receive important exam application tips
7. Fulfill the PMI® training requirement
8. Access our online materials for up to 1 year
9. Internalize PMI® concepts and principles
10. Receive insights into how your company might be able to better align with PMI® standards

This program was built by Petersen Training LLC, which is a **Premier Authorized Training Partner (ATP)** for the Project Management Institute.

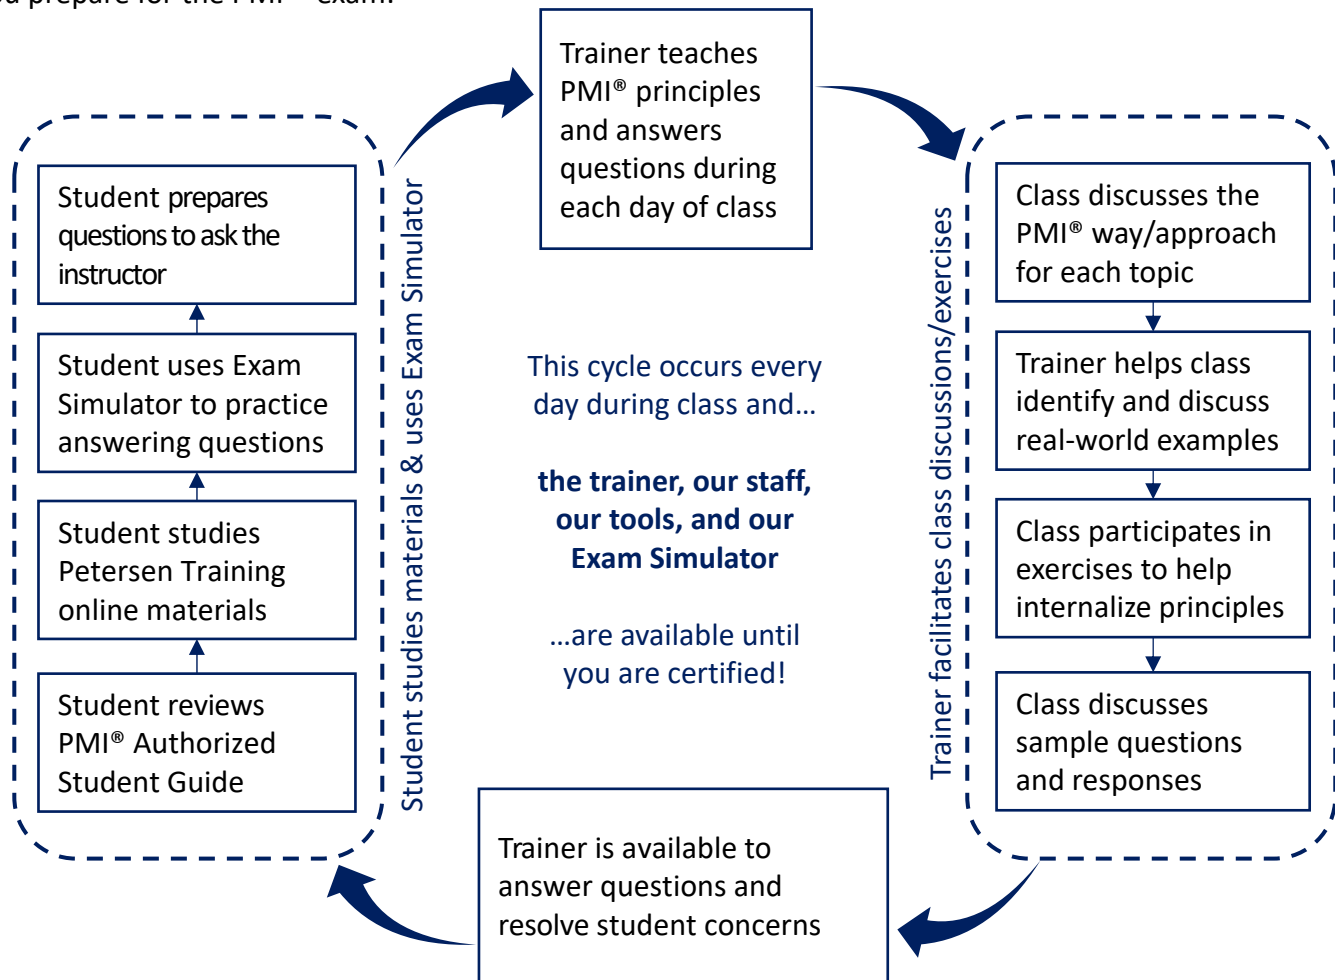

How can our Exam Simulator help you achieve certification?

People learn skills through repetitive practice. Taking the PMP® exam is a skill! Our **Exam Simulator** is designed to help our students receive enough practice with the nuances of PMP® questions, that they build solid skills that will lead them to success during the exam. You will be able to access more than 500 practice questions in a variety of ways through our simulator. We offer quick quizzes organized by topic, or generalized tests that contain 20, 50, 100, or even 200 questions across all PMI® process groups and knowledge areas. All of our practice tests are timed to give you experience with hitting the proper cadence during the exam. Further, all of our questions replicate the difficulty levels you will experience on the actual exam.

Our proprietary exam preparation process

Your instructor will follow the process outlined below to guide you through your class experience and help you prepare for the PMP® exam:

Who should attend?

This course is designed for those who are ready to pursue their PMP® credential. The Project Management Institute requires candidates to verify that they have a minimum amount of experience managing project teams and tasks. We can help you determine whether your experience meets their requirements.
