

Advanced Project Management Certificate (APMC) Program

This is the ultimate, immersive, project management certification experience. It's the most powerful, hybrid, training program on the market!

During this program you will...

- Receive online, simulation, and traditional training
- Experience hands-on skills practice
- Lead and organize virtual project teams
- Experience work in a fast-paced project environment
- Use fundamental project management tools
- Plan, schedule, and control live, dynamic projects
- Prepare to pass the PMP® certification exam
- Receive a certificate from an accredited college

This program is driven by self-paced online courses, hands-on simulation courses (powered by our simulation tool), and our PMP® exam prep course and exam simulation tool!

PMP® is a registered trademark of the Project Management Institute.

Build your resume by receiving the best project management training available, combined with a university certificate!

Why become a certified project manager?

Project management is one of the hottest, fastest-growing professions in the world! Every company and industry uses project managers to achieve business strategies and get things done. As such, certified project managers are some of the most sought-after professionals in the world! Our APMC program is designed to provide students with powerful project management training and to help them earn resume-building credentials. Those who complete this program will receive a certificate from Petersen Training and will be prepared to pursue the coveted PMP® credential that is offered by the Project Management Institute (PMI®).

Top 10 immediate benefits:

1. Earn powerful project management credentials
2. Receive online, simulation, and traditional training
3. Learn the fundamentals in a self-paced online setting
4. Receive advanced practice through live simulations
5. Run simulated projects from start to finish
6. Enhance leadership and management skills
7. Work with real and virtual team members
8. Experience the importance of “soft” skills
9. Effectively prepare for the PMP® examination
10. Access our Exam Simulator software to experience multiple practice tests and exercises to help you prepare for the PMP® exam

The curriculum for this program was built by Petersen Training LLC, which is an Authorized Training Provider (ATP) for the Project Management Institute.

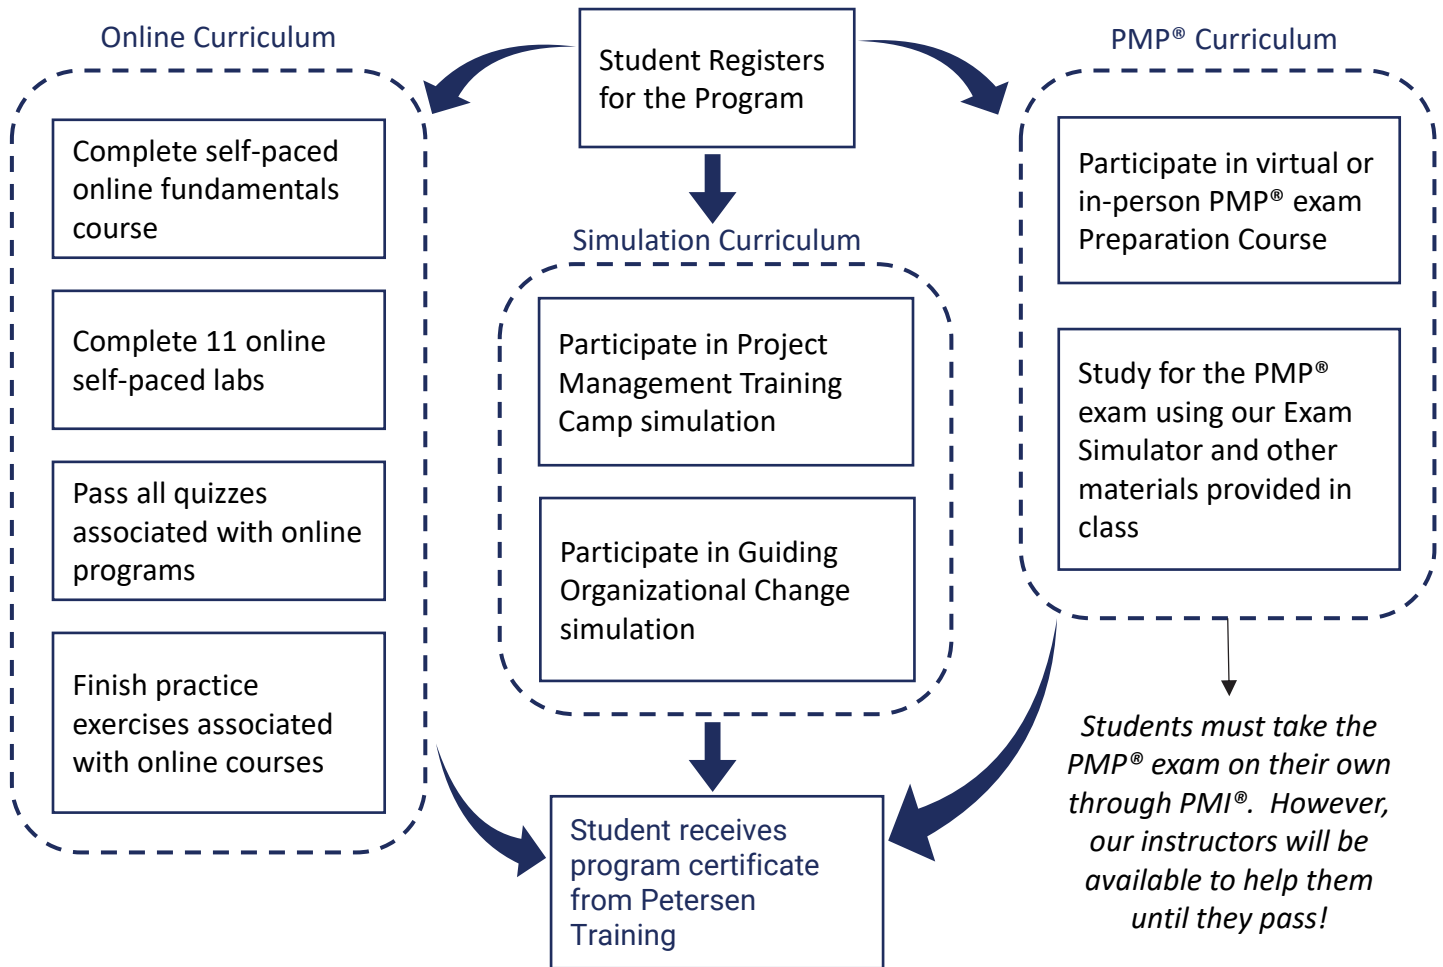

How does our curriculum work?

Our APMC curriculum is organized into online, in-person, and virtual class experiences, which can be completed in any sequence. The online courses and labs focus on project management fundamentals. The in-person classes involve team-based simulation training and address more advanced topics such as project leadership and organizational change (these courses immerse you in a simulated environment that allows for hands-on skills practice in a **risk-free** environment). Finally, our certification curriculum is a combination of in-class, online, and virtual training opportunities that prepare you for the PMP® exam. All of our courses are developed and taught by instructors who have earned the PMP® and hold advanced degrees!

Summary of our APMC curriculum and process:

You can complete our curriculum areas (online, simulation, and PMP®) in any sequence you desire. **When you have finished all three areas**, you will receive a certificate from Petersen Training:

Who should attend?

Seasoned veterans, new project managers, company leaders, and everyone in-between will find success, develop skills, and earn credentials during this program! This program is also helpful for anyone who supports projects and project managers; those who receive this training will be able to better understand the need for timely, quality, coordinated project support.

Onsite delivery for teams?

Hundreds of companies have used our products and programs to amplify their private, onsite training; these opportunities are low-risk, high-return events that can save you real time and money on your projects. Please contact Bill Bialcak using the information shown below to schedule an event for your organization.
